Quality Soffit, Nationwide

## Enduring Protection

### Ultra® Steel Soffit

Ultra Steel Soffit is premium grade soffit designed for any type of exterior soffit overhang or porch ceiling application.

Ultra is formed from heavy 24 gauge steel, protected by layers of zinc-aluminum, and finished with a premium grade Kynar 500® paint finish.

Each panel has 12" width of coverage and lengths are available custom fabricated to the inch from 3' to 35' long.

# Ultra Steel Soffit

## Custom Fabricated Soffit

### Permanent

Ultra is a simple solution for a complex question. A unique hidden fastener design, thick 24 gauge steel core, and high end Kynar 500® paint system all combine for a simple, durable steel soffit.

### Steel

Pushing past thinner 26 gauge material, Ultra is formed from a 25% thicker 24 gauge steel. This enables it to span greater distances between supports, as well as provide an overall tougher soffit material.

### Three Profile Options

Ultra comes either solid flat, solid with one pencil rib, or vented with one pencil rib. Regardless of what style you choose, each will perform well for years to come. Due to the penetration of the steel's protective coating, the vented profile is subject to rust around the perforations.

### 40 Year Warranty

Ultra Steel Soffit is backed by a 40 year paint warranty, guaranteeing your soffit will last for decades to come.

### Specifications:

- 40 Year Warranty
- 24 Gauge
- 12" Width Coverage
- Fire & Impact Resistant
- Kynar 500® Premium Paint
- Installs Over Solid Decking or Open Framing

### Advanced Protective Coatings

Ultra is protected by a tough Kynar 500® . Hylar® 5000 paint system: tough for installation, resistant to fading, and longer lasting than any other system on the market.

**Paint:** Durable baked on paint offers a permanent finish, easily lasting 40+ years. This ensures protection and beauty for years to come.

**Galvalume:** Under the paint, Galvalume (55% zinc, 45% aluminum) provides lasting corrosion protection, even if paint is scratched during installation.

**Steel:** A heart of high-tensile steel guarantees strength and endurance. With the highest ratings possible for impact and fire, Ultra Soffit is ready to weather anything nature throws its way.
